Celeste Stool

Celeste Stool

Designed for both residential and hospitality settings, the Céleste Stool pairs sculptural simplicity with everyday functionality. The solid oak frame provides stable footing and integrated support for the feet, while the seat—upholstered in your choice of fabric—offers lasting comfort with its reinforced foam cushioning. Ideal for open kitchens, counters, or bar areas, the Céleste can be customised to suit various heights.

We offer a 70 and 82 cm versions but the height can be customised to your needs.

As a general guide:

- Counter stools: 58–71 cm seat height
- Bar stools: 74–81 cm
- Tall bar stools: 84–91 cm
- Ensure a clearance of at least 25 cm between the seat and the underside of the counter.

Solid oak frame. Upholstery requires 0.5 meters of fabric, available from our curated textile selection or provided as C.O.M. (Customer's Own Material).
